# Henny Penny Open & Pressure Fryers

## Better design uses less energy

Henny Penny's induced draft technology enables over 60% efficiency in gas models. Electric models use just over 0.5 kW/kg of shortening. Yet both gas and electric models produce extremely fast recovery.

## Faster recovery saves on shortening

Highly efficient heating and fast recovery not only save time, but keep shortening from breaking down and being absorbed by food.

## Filter fast, often and easily

A convenient built-in filtration system allows operators to filter more often with less work and downtime. In three to five minutes you're ready to fry again, no portable filter pumps or pans required.

## Complete line of open fryers and accessories

**320 Series:** gas and electric—one, two, and three-well models

**340 Series:** high capacity, gas and electric—one and two-well models

**OFE-291:** high capacity electric.

## 7-year fry pot warranty

Henny Penny's 7-year fry pot warranty is the best in the business. Plus 2-year warranty on all other parts.

## 'Smart' features improve consistency, reduce labour costs

With Henny Penny open fryers you get more than large capacity, efficient operation and a compact footprint. You also get labour saving features that help Operators maintain product consistency.

## Gas & Electric Pressure Fryers

*Pressure frying takes less time than conventional deep fat frying, so you can serve more orders more quickly. Henny Penny offers computer controlled pressure frying that lets you cook up to ten menu items at the touch of a button.*
